```java
public class Example2{
    public static void main(String[] args){
        int num = 100; //this decalres a variable called num

        System.out.println("This is a num: " + num);

        num= num *2 ;
        System.out.println("The value of num * 2 is");
        System.out.println(num);

    }
}
```
